EXPERIENCE

SuperYeti

San Jose, CA

JS and Rust Developer

01/2024 - 01/2025

Is the world's first 3D 10K generative NFT collection

- Developed a mint page, a landing page for collecting 10000 NFTs, and a smart contract using Solidity.
- By updating menus to be more intuitive, the user interfaces were improved and 5% more clients were attracted compared to the previous quarter.
- Developed a platform similar to Steam and PlayStation to make it easy to convert web2 games to web3 games using Rust, React, and Tauri (desktop stack like Electron)
- Improved database performance by 12% by using materialized views and stored procedures

TiFi

Sunnyvale, CA

Blockchain Developer

07/2023 - 07/2024

Is one of the leading regulated institutions of digital assets based on Binance chain in the USA

- Closely collaborated with the product and dev teams to improve the efficiency of the platform by 25%
- Built a Dex site with swap, stake and farming of Tifi token using React and Solidity
- Participated in the development of 3 new tools and integrated them into the platform.
- Assisted in developing the backend that became the foundation for the intersection between Web3 and FinTech using Solidity, PancakeSwap.
- Participated in 5+ open source community projects, met with stakeholders, and mentored and tutored 3 junior developers

ESG Dynamics

San Diego, CA

Senior Software Engineer

04/2021 - 06/2023

- Worked with web scraping for the construction of website database.
- Made automatic bots for periodical update.
- Worked with Spotfire web app for customization.
- Worked with WordPress for 3rd party integration and customization.
- Worked with Next.JS & Vercel management for the dashboard.
